# Domoto's Camellia List

LIBRARY  
RECEIVED  
★ FEB 25 1932  
U. S. Department of Agriculture

This list offers to you a choice of the many varieties of Camellia japonica which we grow. The dark glossy green foliage and brightly colored, wax-like flowers are a thing of joy for your garden.

The camellias are hardy and not difficult to grow. An east or north east exposure with slight shade is desired. Soil should be well drained and either lightened (heavy soil) or made heavier (sandy soil) with German peat.

Note—This is only a partial list of the varieties which we are growing, others will be added as the stock is increased.

Terms. Cash—Send Postoffice or Express Money Order, check or bank draft. One half the amount must accompany C. O. D. orders.

Shipment—All shipments will be made by Express or Freight collect, unless otherwise specified. No charge for packing on retail orders.

Stock—All stock offered in the list is balled and hurlapped.

## DOMOTO BROS., Inc.

7921 Krause Street • • • Oakland, California

PINK STAR — A deep shell pink, with pointed petals which give the flower a star shape. 12-15 in., \$4.00.

### RED VARIETIES

CHRISTMAS RED — Single to semi-double bright red with showy stamens. A good strong grower and early flowering. 18-24 in. \$3.50; 15-18 in., \$2.50.

DAIKAGURA — Double deep rose. Fine bloomer and holds the blossom well. 15-18 in., \$4.00; 8-12 in., \$3.50.

HITOSUGI — A double rose with a faint white stripe down each petal. 15-18 in., \$3.00.

HOSHI GURUMA — A many petaled rose, dwarf grower. 12-15 in., \$3.00.

KIKUTOGI — One of the best early flowered scarlet reds. Double and regular shaped bloom. 18-24 in., \$3.50.

✕ KURO TSUBAKI — Deepest crimson red. Semi-double. 2-2½ ft., \$4.50; 1½-2 ft., \$3.50.

OTOME RED — Well known double cerise. 18-24 in., \$3.50; 15-18 in., \$2.50.

WAKANOURA RED — Large deep semi-double red. 12 in., \$3.50.

### VARIEGATED VARIETIES

AKEBONO VAR. — A loose semi-double variegated white with pink stripes. 18-24 in., \$3.50; 15-18 in., \$2.50.

DAIKAGURA VAR. — A very double rose with white spots. Some flowers are almost equally white and rose, while still others may be a clear color, all on the same bush. 15-18 in., \$4.00; 8-12 in., \$3.50.

KIKARI GENGI — Very novel variety. The base of the petal is a deep pink, tinting to almost white at the tips, giving the flower a wonderful two tone effect. 15-18 in., \$4.50.

MATSUKASA — The shape of the flower is like an open pine cone, as the name implies in Japanese. Deep rose with white spots. 8-12 in., \$3.50.

MIKENJAKU — A semi-double rose with white spots. Shaped like the Grandiflora rosea but slightly smaller and not quite as open flowered. 18-24 in., \$6.50; 12-18 in., \$5.00.

MONJISU — A very vivid scarlet red, occasionally spotted. Dwarf. 8-12 in., \$3.50.

OTOME VAR. — The flowers are of the Pink Perfection type and striped light pink and white. 18-24 in., \$3.50; 15-18 in., \$2.50.

SOMEKAWA — A large double variegated with deep pink and lush white stripes. 2-2½ ft., \$4.50; 1½-2 ft., \$3.50.

WAKANOURA VAR. — Semi-double with very lustrous deeply serrated foliage. One of the prize varieties exhibited by the Hood Acres Farm every year at the Sacramento Camellia Show. 8-12 in. \$3.50.

### OTHER VARIETIES

FUGI NO MINE — Very early double white, starting in to flower in late October. The flowers are quite fragrant. Plants should be planted where slightly protected. A sasanqua variety. 15-18 in., \$3.00.

APPLE BLOSSOM — Probably a chance hybrid between Camellia sasanqua and Camellia japonica. The flowers are like a sasanqua, while the foliage is strong and glossy like those of the Japonica. Flowers are single and have the apple blossom fragrance. 12-15 in., \$3.50.

### WHITE VARIETIES

ALBA PLENA — An early double white. 15-18 in., \$3.50.

AMABILIS — Beautiful single white with yellow stamens like a Motilaja poppy. 15-18 in., \$3.50; 12-15 in., \$3.00.

KAGIRI — Semi-double white. 18-24 in., \$3.50; 15-18 in., \$2.50.

SHIRAGIKU — Mid-season semi-double white. Not quite as full as the well known Alba Plena. 18-24 in., \$3.50; 15-18 in., \$2.50.

SHIRATAMA — Full double white. 18-24 in., \$3.50; 15-18 in., \$2.50.

SNOWBALL — The very irregular formation of this flower gives it a very round snow ball like appearance. 18-24 in., \$6.50; 15-18 in., \$5.00.

SNOW DRIFT — Semi-double chalk white. 18-24 in., \$4.00; 15-18 in., \$3.00.

YAE SHIRATAMA — A semi double early white. Growth is spreading white young. 18-24 in., \$3.50; 15-18 in., \$2.50.

### PINK VARIETIES

AKEBONO PINK — Semi-double light flesh. 18-24 in., \$3.50; 15-18 in., \$2.50.

CHANDLERI ELEGANS — One of the largest flowered camellias known. The dense cluster of many small petals is surrounded by a double row of regular petals. Color a light rose pink, occasionally blotched with white. 1½-2 ft., \$6.50; 1-1½ ft., \$5.00.

FRENCH PEONY — Deep pink with tufted center. Good strong grower. 2-2½ ft., \$4.00.

GRANDIFLORA ROSEA — An immense semi-double rose with golden or tasseled stamens. Often measures over 6 inches in diameter. A variety of which we are very proud. 12-15 in., \$10.00; 8-12 in., \$6.50.

HIKARI PINK — A good loose flowered pink. 12-15 in., \$3.50.

KUMASAKA — The queen of self colored pinks for size and keeping quality. Very floriferous and full. 18-24 in., \$6.50; 12-15 in., \$5.00.

PINK PERFECTION — The familiar shell pink double. 1½-2 ft., \$3.50; 1-1½ ft., \$2.50.
